FullStack Developer, Front-End focused, delivering high-quality web applications by mastering cutting-edge technologies. Proficient in JavaScript, TypeScript, React, NodeJS, ExpressJS, HTML, CSS, and Tailwind. Skilled in leveraging AWS for cloud-based solutions and actively expanding expertise in advanced frameworks like NextJS while utilizing databases as MongoDB and SQL to build robust and scalable applications. Always eager to tackle challenging projects that combine technical skills with creativity.

With a unique blend of technical expertise and design experience, developed through 5+ years in Brand Identity and over a decade as a High-Performance Sabre Fencer, I bring organization, discipline, and creativity to achieve impactful results.

WORK EXPERIENCE

Full Stack Developer - Freelance

2023 - current

- Developed an online booking platform for tennis courts, leveraging full-stack skills. Created an intuitive UI with JavaScript, React, HTML, CSS, and Tailwind. Achieved a 50% increase in bookings.
- Developed full-stack web solutions, increasing system efficiency by 20% and user satisfaction rates by 35%, utilizing JavaScript, React, and Node.js.
- Task Management Application: Built a Trello-inspired task management app, designing the UI/UX and implementing the front end with HTML, CSS, JavaScript, React, and Tailwind. Developed the back end using Node.js, Express.js, and MongoDB, focusing on authentication, user roles, task assignments, and encryption/decryption for password security.
- AWS-Integrated Task Management App: Deployed the task management app using AWS. Hosted the front end in S3, set up the back end as Lambda functions triggered by API Gateway, and utilized DynamoDB as the database. Leveraged IAM roles for secure access and monitored performance using CloudWatch.

Front End Developer - Freelance

2023 - current

- Optimized user experience for online stores, reducing page load times by 40%. Increased user retention through advanced front-end technologies and intuitive interfaces that enhance engagement.
- Created showcase websites for diverse companies and influencers, enhancing their online presence. Achieved a 40% increase in conversion rates through optimized user interfaces and captivating designs.
- Developed a single-page website for a café, improving online presence by 60% in the first months and driving conversions to social media and physical locations.
- Magento and WordPress, elevating visual design by 20%, crafting more intuitive user experiences, and boosting user retention.

Brand Identity - UI/UX Designer - Freelance

2019 - 2024

- Developed distinctive brand identities for 50+ companies, enhancing visual presence. Aligned messaging with market trends, combining creativity and strategy to strengthen customer connections.
- Designed user-centered web and mobile interfaces, applying branding and UI/UX principles to enhance user interaction and digital engagement.
